# Recipes/Crafts

I want to make slime and slime is fun all you do is you buy in then you get sta flo and food coloring and you mix it and you made slime. So that why I like slime because it satisfying.

# The Incredibles 2 pg.1

## By Abby Logsdon

Finally it's here! The Incredibles 2 is finally here! After 14 years Incredibles 2 finally came out. Now I have personally have seen Incredibles 2, and in my opinion Incredibles 2 is so much better than the first one. One thing I like in Incredibles 2, they brought E back. In my opinion my favorite character Helen Parr or Elastigirl.

In the new Incredibles Tony the boy Violet likes and that's who she is going to the movies with Friday night, but Violet gets mad and takes here mask of and Tony sees her. The only reason she did that was because she got frustrated and she didn't want to be a superhero no more. At this time in the movie superheros are still illegal, but don't worry because Helen is going on a mission to save superheros rights to fight crime. Now if you want to find out more you

Will have to watch the movie. Also if you have never seen either movies than you should start out watching the first Incredibles than move on to the second one. Thanks for reading the Paw Print Press!

# Fortnite Save The World

Fortnite Save The World is a game for most gaming platforms or consoles it cost 39.99 but is believed to become free sometime this january. Fortnite is a multiplatform game where your goal is to collect minerals and defend the earth from “zombies” but the so called zombies have been toned down and look more like purple blobs but I respect this because it is supposed to be a fun online game not a horror movie. Save the world was released in 2017 by epic games the creators of gears of war, infinity blade, and paragon. The only down side on this game is that it is possible to be scammed because there is a trading system and players can lie and trick you.

# The Cone Snail

The cone snail is a snail that is very venomous and can easily kill a person in one sting. So don't find yourself by its mouth. It is called the cigarette snail because you can only smoke one cigarette before your organs fail and you die.

But luckily the smaller species can't kill you usually so that lowers the chances to be killed. The Cone Snail is one of the biggest families of marine snails

Imagine a 9 inch snail in your hands you would most likely be hit by a venomous tooth. The Cone Snail's shell is heavy and smooth which makes them a very prized and very venomous snail. Did you know that the venomous tooth on its face can shoot out and kill you with venom that is so strong that it can kill fish with it.

So do you believe it is deadly or just a hoax. I am planning on getting in the ocean soon think twice next time.
